

This CD-ROM provides

- an interface to create maps and fact sheets of global change scenarios and impacts on ecosystem services in Europe
- a suite of vulnerability maps for different sectors
- simple analytical tools to compare scenarios and potential impacts between counties and environments
- export facility for the fact sheets

Use of the material

All material on this CD-ROM may be reproduced for educational or non-profit purposes without special permission from the copyright holders, provided acknowledgement of the source is made. This CD-ROM may not be used for resale or for any other commercial purpose whatsoever without prior permission in writing from The C.T. de Wit Graduate School for Production Ecology & Resource Conservation (PE&RC). For bibliographic and reference purposes this publication should be referred to as: M.J. Metzger, R. Leemans, D. Schröter, W. Cramer and the ATEAM consortium. The ATEAM vulnerability mapping tool. Quantitative Approaches in Systems Analysis No. 27, CD-ROM publication, Office C.T. de Wit Graduate School for Production Ecology & Resource Conservation (PE&RC), Wageningen, The Netherlands, 2004.

Acknowledgements

This CD-ROM synthesizes the main outputs of the EU 5th framework program EVK2-2000-00075 "Advanced Terrestrial Ecosystem Analysis and Modelling" (ATEAM). Many scientists contributed, both directly and indirectly, to the creation of this CD-ROM. References to the methodology, data and ecosystem models used in ATEAM can be found in the software. Here we acknowledge the contribution of all members of the ATEAM consortium: Miguel Araújo, Nigel Arnell, Alberte Bondeau, Harald Bugmann, Tim Carter, Wolfgang Cramer, Anne de la Vega-Leinert, Frank Ewert, Pierre Friedlingstein, Mohren Frits, Margaret Glendining, Carlos Gracia, Thomas Hickler, Jo House, Eva Kamphorst, Susanna Kankaanpää, Richard Klein, Brigitta Krukenberg, Sandra Lavorel, Rik Leemans, Marcus Lindner, Jari Liski, Marc Metzger, Jeanette Meyer, Tim Mitchell, Eduard Pla, Jacomijn Pluimers, Colin Prentice, Ari Pussinen, Isabelle Reginster, Pytrik Reidsma, Mark Rounsevell, Santi Sabaté, Anabel Sanchez, Dagmar Schröter, Stephen Sitch, Pete Smith, Martin Sykes, Kirsten Thonicke, Wilfried Thuiller, Gill Tuck, Geesje van der Werf, Jordi Vayreda, David Wilson, Sönke Zaehle, Gonzalo Zavala Espeñeira, Bärbel Zierl and Sergey Zudin.

Minimum system requirements: Pentium III, 450 MHz, 128 Mb RAM, Windows 2000

The ATEAM vulnerability mapping tool

Explore the vulnerability of different sectors to global change impacts in Europe.

ATEAM

Produced by M.J. Metzger, R. Leemans, D. Schröter, W. Cramer and the ATEAM consortium, as part of the EU 5th framework program "Advanced Terrestrial Ecosystem Analysis and Modelling". Wageningen, October 2004.
