

CORRIGENDUM

Ni, J., Sykes, M.T., Prentice, I.C. & Cramer, W. (2000) Modelling the vegetation of China using the process-based equilibrium terrestrial biosphere model BIOME3. *Global Ecology and Biogeography*, **9**, 463–479.

NPP data used in the analyses reported in this paper and sourced to Ni *et al.* (unpublished data) available online at <http://daac.esd.ornl.gov/npq/chn/chf> are no longer available online at this url. The original NPP data, by site and province are given in: Luo, T. (1996) *Patterns of net primary productivity for Chinese major forest types and their mathematical models*. PhD Dissertation, Chinese Academy of Sciences, Beijing, CN.
