Global Climate Governance

Fall 2020/21

Professor Detlef F. Sprinz, Ph.D.

Purpose and Contents

This seminar provides an overview of global climate governance, incl. overarching conceptual frameworks, a variety of empirical subdomains, and central challenges encountered in global climate governance. Using a portfolio approach to examinations, students will prepare a range of individual and group assignments throughout the semester.

Learning Goals

Knowledge
Students will:
- gain an overview of theoretical concepts and empirical domains of global climate governance and
- understand the strategic challenges in managing long-term climate policy challenges.

Skills
Students will undertake a range of assignments, both individually and in small groups. In particular, they will broaden their skills basis by
- introducing the class to two mandatory readings and
- responding to a central, yet hitherto unsolved, global climate policy challenge.

Competences
Students will:
- apply a range of concepts and methods to generic global climate (and environmental) governance challenges,
- diagnose as well as propose remedies for long-term environmental climate challenges,
- explore new ideas for, e.g., for subsequent use in their Master thesis, and
- work individually as well as in groups on a diverse set of assignments.
Logistics

Time: →Course Overview
Location: Zoom and (provided it is sufficiently prudent to do so) in-person meetings.
Zoom Details for Module 1 on 05 Nov. 2020 (opens at 8:00h; course starts at 8:30h):

https://uni-potsdam.zoom.us/j/84642011252
Meeting ID: 846 4201 1252
Passcode: 35486328
Dial by your location
+49 69 050 2596 Germany
+49 69 7104 9922 Germany
+49 30 5679 5800 Germany
local number: https://uni-potsdam.zoom.us/u/kefQuLifrK

Zoom Links for Modules 2-13 will be posted to →Moodle.

In case circumstances permit, we will hold small, in-person group consulting sessions on 26 Nov. 2020 as well as Modules 12 & 13 at the University of Potsdam. Should circumstances not permit meeting for those modules in person, we will resort to Zoom. Please check →Moodle for announcements.

Prerequisites: M.A., doctoral student status, or special students in Political Science, Public Administration, MAIB, or MPM; exceptions at the discretion of the instructor

Course Registration: →https://puls.uni-potsdam.de, Course: 430511
(you will be admitted to the waiting list). Students without access to PULS send a brief email to Montana Attwood (→Teaching Assistant) and indicate (1) first & last name, (2) email (University of Potsdam email preferred), (4) field und semester of studies, (4) why they cannot access PULS, and (5) why they wish to take this course.

Deadline for Dropping the Course: 30 Nov. 2020
Credit Points: 5-10 (ECTS)
Course website: Moodle →https://moodle2.uni-potsdam.de/course/view.php?id=24788
Capacity: 20
Contact Details:

dsprinz@uni-potsdam.de (include “GCG Winter 2020” in the subject line)
www.sprinz.org
Office Hours: by appointment
Teaching Assistant: Ms. Montana Attwood (attwood@uni-potsdam.de)

Practicalities

This course requires usage of Zoom and Moodle for our communication and interaction. In addition, we may use other digital tools. We will use Moodle for contents management (self-enrollment for students with a University of Potsdam account; other students contact the →teaching assistant by email) and Zoom (for video; access for the second session and thereafter will be published on →Moodle). In addition to a laptop, you will need a strong internet connection, a microphone,
and a camera. Please make sure that your hardware avoids negative audio feedback; the use of headsets circumvents such problems. If you are not actively speaking, please mute your microphone. To preserve bandwidth, please switch off the video function if connectivity is weak, except when making an active contribution. For the latter, please also “raise hand” in Zoom (participants), and “lower” your hand once you have spoken. In case we experience systemic problems with bandwidth (or you individually), please use the call-in (phone) function of Zoom (German & international call-in numbers at https://uni-potsdam.zoom.us/u/kefQuLifrK) and access the presentation files on Moodle. We will also provide a brief guide to Zoom on Moodle.

**Code of Conduct**

Given the current health circumstances, please regularly update yourself on and follow the policies in force at the University of Potsdam (https://www.uni-potsdam.de), the City of Potsdam (https://www.potsdam.de), the State of Brandenburg (https://www.brandenburg.de), and (in case you commute to the University of Potsdam premises from Berlin) the State of Berlin (https://www.berlin.de). The instructor reserves the right to impose more stringent health policies, given specific circumstances.

All students are assumed to be familiar with and will abide by the rules of proper academic conduct as specified by the University of Potsdam (https://www.uni-potsdam.de/am-up/2011/ambek-2011-01-037-039.pdf), and for courses offered jointly with other universities and academic programs, their rules apply in addition. You are expected to undertake all your individual assignments independently. For group assignments, resulting products shall be authored exclusively by all group members (with individual components clearly marked). Failure to comply with such rules may lead to the consequences stipulated in http://www.uni-potsdam.de/am-up/2020/ambek-2020-03-088-112.pdf (German) (no current translation into English available at the time of writing) (§17).

Each written submission in this course shall include page 2 of https://www.uni-potsdam.de/fileadmin01/projects/wisofak/Dateien/Studium/informationen_f__r_sstudierende_plagiatssoftware_april_2014.pdf (in German only; also available on the Moodle website for this course).

Some students appear to have fallen in love with around-the-clock connectivity and social media. During our seminar sessions, I expect you to concentrate solely on this course.

All (personal) information and material that you encounter in conjunction with this course, on Zoom, or on Moodle shall be exclusively used for course-related purposes.
Whenever we use outside services, you agree to abide by their respective End User License Agreement or equivalent. You also accept all rules of academic conduct for the entire course by submitting the first written assignment, whether this is a paper, written test, or quiz.

Students are expected to attend all sessions. If you fall ill, please inform the instructor and teaching assistant with as much lead time as possible. In case you cannot submit assignments due to medical reasons, you must submit an appropriate medical certificate. In addition, in case you request accommodations (“Nachteilsausgleich”), please inform the instructors to this effect and provide the necessary documentation during the first three modules of this course. In case observation of religious obligations interferes with academic deadlines, please notify the instructor well ahead of the deadlines.

**Course Requirements and Grading**

Students are expected to attend all classes and read all required readings before class so as to allow for informed discussions.

This course comprises a portfolio of assignments. Students receiving 5-6 ECTS conduct Assignment #3 as a group assignment; students wishing to receive 9-10 ECTS undertake Assignment #3 as an individual assignment. Please inform the teaching assistant how many ECTS you wish to receive by 12 Nov. 2020 before undertaking Assignment #3.

Global Climate Governance (Syllabus)

Textbook & Readings

All other readings can be found on →Moodle.

Assignments

All Assignments

Assignments will be posted to →Moodle well ahead of the deadline. Submission deadlines are indicated on the →Course Overview.

When composing your individual or group papers, your emphasis is not on reviewing the material covered in the required readings; it is assumed that you (and all other course participants) have read it. Read the instructions carefully (!), build on the required readings, and innovate in a way not found in the required readings. Leave the reader with the impression that your ideas (either individual or as a group) have been carefully chosen and could be expanded upon in a longer research paper or Master thesis. Please note that keeping it short is the art of structuring one’s mind and concentrating on the main points rather than on peripheral considerations. It is more difficult to write a convincing short paper than a long paper!

All papers include your student ID number(s), assignment number (see overview), and word count on the first page. At a minimum, leave one inch margins from all four edges of A4-sized sheets. Footnotes shall be kept to a minimum. All text is 1.5-spaced, 11-12 point font. Paper length will be strictly enforced (the word count includes literally everything). Papers shall be submitted – in PDF format – via →Moodle by the due date and time (→Assignment). Extensions will be granted only under extraordinary circumstances, following written petition to the instructor.

For proper citation, please consult →https://poorvucenter.yale.edu/using-sources.

In case of group assignments, all author ID numbers have to be listed, including a short description who contributed what.

In case you cannot submit assignments due to medical reasons, you must submit a medical doctor’s certificate to the instructor.

The allocation of individual students into groups is at the discretion of the instructor.

Individual Assignments will be posted to →Moodle and are outlined below.

Assignments #1 & #2: Introducing the Readings

Sign up for a specific reading via → Moodle Sign-Up Sheet for Assignment #1 and for
Assignment #2. Please compose a max. 500 word paper reflecting on the central arguments of the reading, a critique thereof, and conclude with a lead question for the class. There is no need for a cover page. Submit the short paper no later than the Wednesday, 14:00h, preceding its presentation to the class to →Moodle.

Together with all other students presenting an assignment #1 or #2 for the same module, paper givers will offer a joint 5 minutes introduction to the topic of the module at large. Subsequently, we split into parallel breakout groups, led by the paper givers and the discussion of each breakout group will be summarized by a rapporteur in the ensuing plenary. Assignment to breakout groups and to rapporteur status is random and at the discretion of the instructor. The instructor will visit the parallel breakout groups and subsequently will lead the concluding discussion in the plenary.

Assignment #3: Solutions for Long-Term Climate Policy Challenges: Video, Presentation, Q&A, Paper

A range of indicative enduring challenges will be made available on 19 Nov. 2020, yet you will be free to propose any comparable long-term climate policy challenge you wish to pursue. Please submit a (max.) one-page proposal (ungraded) by 25 Nov. 2020 and book (as a group [5-6 ECTS] or individual [9-10 ECTS]) a slot for consultation on 26 Nov. 2020, 14:00-16:00h (first come, first served).

In advance of the presentation of your preliminary final group paper on 17 Dec. 2020, please produce a ca. 5-10 minute group video which presents your suggested solution(s) as well as a 1-2 page extended outline by 16 Dec. 2020, noon. The Q&A session on your solutions will provide feedback on 17 Dec. 2020. The final paper is due on 13 Jan. 2021.

Modules

Module 1: Course Overview

Course Overview

Module 2: Guest Lecture: Dr. Daniel Klingenfeld (Potsdam Institute for Climate Impact Research): The Science of Climate Change

Module 3: Climate Change as a Long-Term Policy Challenge

Module 4: Global Climate Negotiations: History

Watch the videos:
- Christina Figueres: The Inside Story of the Paris Climate Agreement https://www.youtube.com/watch?v=MIA_1xQc7x8,

Module 5: Actors I: Countries

Module 6:  Actors II: Non-State Actors

Module 7: Compliance & Implementation

Check www.unfccc.int (more specifically under the rubric of the Kyoto Protocol) for compliance issues.

Module 8: Effective Climate Governance?

Module 9: Compensation/Loss & Damage

Module 10: Modeling Global Climate Negotiations, incl. Climate Clubs

Module 11: Guest Lecture: Matthias Honegger (Institute for Advanced Sustainability Studies, Potsdam): Carbon Dioxide Removal and Solar Geoengineering – Emerging Categories of Climate Action?

Module 12: Solutions for Long-Term Climate Policy Challenges

Presentations + Q&A

Module 13: Course Review
